## **EXAMINER'S AMENDMENT**

The application has been amended as follows:

Claims 1-30 have been canceled.

The following is a statement of reasons for the indication of allowable subject matter: the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious a planarization composition for chemical mechanical planarization using low contact pressures to remove ruthenium from a work piece, the composition comprising a plurality of abrasive having a Mohs hardness in the range of about 5 to about 9 and a particle size in the range of about 20nm to about 2microns, said plurality of abrasive particles comprising 1 to 50 wt. percent of the composition; wherein said planarization composition causes the **ruthenium** to be removed from the work piece as **ruthenium hydroxide** when the planarization composition has a pH in the range of about 8 to about 12; **ruthenium oxide** when the planarization composition has a pH in the range of about 2.5 to about 14; and **ionic ruthenium** when the planarization composition has a pH no greater than 2.5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Ojini whose telephone number is 571 272
